

MEET BAROT

AI/ML ENGINEER

☎ +91-9016752932 ✉ barotmeet25@gmail.com 🔗 linkedin.com/in/meetbarot

Summary

Computer Science student with strong foundations in Machine Learning and Data Science, including model building, evaluation, and data preprocessing. Familiar with modern AI concepts such as LLMs and RAG, along with basic knowledge of MERN stack and backend systems. Passionate about building intelligent, data-driven solutions.

Skills

Programming Languages: C, C++, Java, Python, JavaScript, SQL

Machine Learning & AI: Supervised Learning, Model Evaluation, Data Preprocessing, Feature Engineering, LLMs, RAG

Web Development: HTML, CSS, JavaScript, MERN Stack (Basic)

Libraries & Frameworks: Pandas, NumPy, Scikit-learn, TensorFlow, PyTorch, Hugging Face, Matplotlib, Seaborn

Databases: MySQL, MongoDB

Tools & Technologies: Git, GitHub, Docker, Kubernetes

Experience

Machine Learning Intern

Apr 2026 – May 2026

Prodigy InfoTech (Remote)

Tools Used: Python, Scikit-learn, Pandas

- Developed and evaluated machine learning models on real-world datasets, improving prediction performance through feature engineering and preprocessing
- Analyzed datasets of structured data to identify patterns and generate actionable insights using statistical methods and visualization
- Applied LLM and RAG concepts to design intelligent workflows for real-world problem scenarios

Freelance Developer

Aug 2023 – Dec 2023

Self-Employed

Tools Used: Shopify, Business Analytics

- Designed and managed a Shopify-based dropshipping platform, handling end-to-end operations including UI, product listings, and order processing
- Executed and optimized social media marketing campaigns while managing customer interactions and analyzing engagement to improve conversions

Projects

PawPerfection | React, Node.js, Express, MongoDB, Redis, Docker, Kubernetes

Jan 2025 – Jan 2026

- Led the development of a scalable full-stack pet management platform, coordinating a team and driving architecture decisions
- Designed and implemented secure authentication using JWT and Google OAuth, along with Stripe-based payment integration
- Optimized backend performance by implementing Redis caching and rate limiting, and developed RESTful APIs for multi-pet tracking and real-time monitoring

Awards & Certifications

- **Oracle OCI 2025 Generative AI Professional:** LLMs, RAG, vector databases, OCI-based AI deployment
- **Oracle OCI 2025 AI Foundations Associate:** AI, ML, DL fundamentals with cloud-based AI services
- **Machine Learning A-Z (Udemy):** Regression, classification, clustering, model evaluation with real-world datasets

Education

Dr. Kiran & Pallavi Patel Global University

Vadodara, Gujarat

Bachelor of Technology in Computer Science Engineering

Aug 2023 – May 2027

- CGPA: 9.15
