

MEET BAROT

MACHINE LEARNING / AI ENGINEER

+91-9016752932 | barotmeet25@gmail.com | Vadodara, Gujarat, India | [linkedin.com/in/meetbarot](https://www.linkedin.com/in/meetbarot) | github.com/meet25bar

Summary

Motivated Machine Learning / AI Engineer focused on Machine Learning, Artificial Intelligence, Generative AI, LLMs, and Retrieval-Augmented Generation (RAG). Experienced in developing AI applications using Python, building ML workflows, integrating LLM-based systems, and deploying AI solutions through FastAPI and Docker. Developed AI solutions for immersive AR/VR applications and intelligent agriculture systems.

Technical Skills

Programming Skills: Python, C++, C, Java, JavaScript, SQL

Machine Learning: Scikit-learn, Machine Learning Algorithms, Supervised Learning, Unsupervised Learning, Regression, Classification, Clustering, Prediction, Data Preprocessing, Data Cleaning, Feature Engineering, Feature Selection, Model Evaluation, Hyperparameter Tuning, Cross-Validation, Statistical Techniques

Generative AI: Generative AI, Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Prompt Engineering, Embeddings, Vector Databases, Semantic Search, AI Agents, Hugging Face Transformers

Deep Learning: TensorFlow, PyTorch, Deep Learning, Neural Networks, Transfer Learning

Data Science: Pandas, NumPy, Matplotlib, Seaborn, Exploratory Data Analysis, Statistical Analysis, Data Visualization

Deployment & APIs: Application Development, Software Development, FastAPI, Uvicorn, RESTful APIs, ML Model Deployment, Model Serving, Docker, SQLAlchemy, JWT, OAuth

Cloud, Databases & DevOps: AWS, Oracle Cloud Infrastructure (OCI), GCP, Cloud Infrastructure, MySQL, MongoDB, NoSQL, Redis, Git, GitHub, Version Control, Kubernetes

Soft Skills: Problem-Solving, Analytical, Communication, Teamwork, Motivated

Experience

Gen AI Trainee

Jul 2026 – Present

SpectoV — Internship

Python, Generative AI, LLMs, AR/VR

- Developing Generative AI solutions for Augmented Reality (AR) and Virtual Reality (VR) applications using Python and Large Language Models (LLMs)
- Engineering and integrating LLM-based workflows into immersive AR/VR experiences for AI-driven content generation and interactive user experiences
- Applying prompt engineering, model evaluation, and Generative AI techniques to develop and refine intelligent solutions for immersive applications

Machine Learning Intern

Apr 2026 – May 2026

Prodigy InfoTech (Remote)

Python, Scikit-learn, Pandas

- Developed and evaluated machine learning models on real-world datasets using Python, Scikit-learn, and Pandas
- Engineered data preprocessing and feature engineering workflows alongside exploratory data analysis and visualization to improve model performance
- Designed intelligent workflows using Large Language Models (LLMs) and Retrieval-Augmented Generation (RAG) concepts for real-world problem scenarios

Projects

KisanSangam | *Python, Machine Learning, Generative AI, RAG, REST APIs*

2026

- Engineered a 6-factor AI-driven crop recommendation workflow using soil, crop, location, season, climate, and market parameters for data-driven crop planning
- Developed AI-powered farming guidance covering cultivation requirements, fertilizer recommendations, crop duration, and farming resources
- Integrated Machine Learning and Generative AI capabilities into a smart agriculture application to support intelligent crop selection and farming decisions

PawPerfection | *React, Node.js, Express.js, MongoDB, Redis, Docker, Kubernetes*

Jan 2025 – Jan 2026

- Led development of a full-stack pet management platform, coordinating a team and driving application architecture decisions
- Implemented JWT and Google OAuth authentication, Stripe payments, and REST APIs for multi-pet management
- Optimized backend performance using Redis caching and rate limiting, with Docker and Kubernetes for containerized deployment

Achievements

- SSIP 2.0 Grant – KisanSangam:** Awarded an INR 1.5 lakh Proof of Concept grant under SSIP 2.0

Certifications

- Oracle OCI 2025 Generative AI Professional:** LLMs, RAG, vector databases, and OCI AI deployment
- Oracle OCI 2025 AI Foundations Associate:** AI, Machine Learning, Deep Learning, and OCI AI services
- Deep Learning A-Z [2026] – Udemy**
- Python for Data Science and Machine Learning Bootcamp – Udemy**
- FastAPI – The Complete Course 2026 – Udemy**

Education

Dr. Kiran & Pallavi Patel Global University

Vadodara, Gujarat

Bachelor of Technology in Computer Science Engineering

Aug 2023 – May 2027

– CGPA: 9.17
